

Jyoti Sharma

Mumbai, Maharashtra, India — sharmajy.mi.24@nitj.ac.in — +91-8070838940 — [LinkedIn](#)

Summary

Hard-working and adaptable software enthusiast with strong learning ability and solid foundations in programming and problem-solving, capable of contributing effectively in team-based development environments.

Education

National Institute of Technology, Jalandhar 2024 - Present
MTech in Machine Intelligence and Automation **CGPA: 8.26**

MCT's Rajiv Gandhi Institute of Technology, Mumbai 2019 - 2023
BE in Electronics and Telecommunication **CGPA: 8.42**

Thesis Work (Ongoing)

Multimodal system for ASD Classification using Machine Learning 2024 – Present

- Developed an age-stratified questionnaire-based ASD screening system using boosting and five models.
- Built a multisite MRI based ASD classification using T1 MRI and rs-fMRI with PCA-ComBat harmonization.

Skills

- **Languages:** Python, SQL, HTML, CSS
- **Core Concepts:** ML/DL, Data Structures, OOPs, DBMS, Operating System, Mathematics & Statistics
- **Frameworks & Tools:** Pandas, Numpy, GitHub, Linux, VS Code, Edge Impulse
- **Soft Skills:** Communication, Team Collaboration, Problem-Solving

Projects

- **Real-Time IP Blocking and Risk Scoring in Login System using ML**— Python, Flask, ML,GB, Email Automation, Cybersecurity, Risk Analytics— Secure Flask Authentication System(92% accuracy).
- **House Price Prediction Model**— Python, Regression,Built a Random Forest model improving prediction accuracy to 95%.— visualize using Matplotlib and Seaborn.
- **Netflix Data Analysis using SQL** — Kaggle, Python, Pandas, SQL, Data Visualization — Built ETL workflow for data cleaning, SQL storage, aggregation analysis, visualization.
- **Restaurant Website**—HTML, CSS, JavaScript, Bootstrap 4— Responsive, multi page website

Internships

Computer Vision Intern, Edverb Learning Pvt. Ltd. Feb 2022 – Mar 2022

- Developed CV features and optimized software modules for embedded execution using ESP32-CAM.
- Contributed to debugging, testing, and improving code reliability in real-world workflows.

Achievements

- Presented a research paper at an international conference (SoCTA 2025): *“PCA-Enhanced Stacking Ensemble for Multisite Autism Spectrum Disorder Classification Using sMRI and rs-fMRI.”*
- Qualified GATE examination, demonstrating strong analytical and engineering fundamentals.
- Selected as Brand Ambassador at Tutedude, contributing to outreach and student engagement.
- Led technical initiatives as Technical and Digital Secretary at IEEE–RGIT.

Certifications

- Python for Data Science, AI, and Development — *IBM*
- Front-End Web UI Frameworks and Tools (Bootstrap 4) — *Coursera*
